

# VISION PAD PLACEMENT

## Installation & Parts List

### PARTS LIST

To install your Vision Pad's, simply remove them from their packaging and position them under your hot tub's shell on the side that your hot tub cover will rest.

Even spacing of the VisionLift Pad's will ensure proper protection of your cover.

Note that installing your Vision Pad's on an even surface will also aid in the longevity of your covers appearance and functionality.

See figure below for placement assistance.
